### New York Stock Market Quotations FRICK'S BREAK

Says Holland in Sketch Of Financier.

It sometimes happens that a man public is of hermit-like disposition, not 57% personally familiar with or known to 89% any considerable number. And yet

vas so, with Henry C. Frick.
Of course the first thought which
was occasioned by the death of Mr.
Frick nad reference to his break with
Andrew Carnegie. Many have been the reports which have professed to outline the causes and methods which characterized that rupture. They can however be reduced to a very plain and simple fact. Both Mr. Carnegie and Mr. Frick were monarchs in their own empires. It is impossible for two monarchs long to occurs one their own empires. It is impossible for two monarchs long to occupy one throne. Mr. Carnegie, until he distributed

suspected that he may stand third

States of great wealth.

There was, however, a great differrespective to the manner in which these
fortunes were accumulated. Mr. Rock-

Mr. Carnegie's greater fortune came, to him through the enermous payment 332 made to him by the erganizers of the 1352 United States Steel Corporation. It Mr. Carnegie's greater fortune came and in that sense was the larges gain ever accumulated by any American citizen.

It would not astonish Mr. Frick's

friends if the inventory of his estate disclosed that its present-day value is considerably in excess of \$100,000,000. He was almost unknown personally. He might pass up and down Broadway or through Wall Street and hardly anyone recognize him. He loved solitude, apparently find-

ing sufficient companionship in had perfected them by
